

# *What do they* **THINK AND FEEL?**

what really counts  
major preoccupations  
worries & aspirations

Will it track properly?

Are those data accurate?

Am I following a good diet?

What should I eat today?

no rewards or no challenge to complete the task

Having a personalized coach is better

you can still have your desired food within your calorie goals

Nutrition is

I wish I looked like that

Insecured

obesity/skinny

Wasting a lot of time

fit and healthy

takes so much storage space

Not correct information provide i've to refresh again and again.

Due to lot of menus and
